# THE MAGIC MOMENT

*This magic moment – when we risk parting from the familiar patterns of the past,*

*This magic moment when the past disappears and we dare to leave the dimension of known time, and to face the future.*

*This magic moment –creates a new reality.*

*This magic moment contains perfect acceptance of the entire universe,*

*In this magic moment – we walk past the fear of the future ,  
We allow our special melody to ring out and bring  
inspiration.*

*This magic moment, this moment only,  
Is the sign for mankind's ability  
To create his world and to shape his future.  
This magic moment, this moment alone, can create a  
future in the life of a state,  
Can bring the emotional strength and power – to fully  
embrace its identity,  
To look at its past, but not to be captive of the past,  
To a dimension of forgiveness, to a dimension of  
healing, to a dimension of acceptance,  
To the dimension of the future.*
